## Mobile Apps Developer

---

Flutter Developer with a strong foundation in Dart, Firebase, and state management (BLoC, RiverPod), transitioning from a Pharmacy background that shaped a methodical and detail-oriented mindset. Proven ability to build, test, and deploy full-stack mobile apps with clean architecture and RESTful APIs. Passionate about solving real-world problems through scalable and performant mobile solutions.

## EDUCATION

---

(2017-2021) **AL-AZHAR UNIVERSITY : Bachelor of Pharmacy**

(2023-Present) **FLUTTER SELF-TAUGHT**

## COURSES

---

- Flutter & Dart – Udemy (Taught by Tharwat Samy)
- Clean Architecture in Flutter – Udemy (Taught by Hadi kacshmar)
- State Management (Bloc , RiverPod & Provider) – Udemy (Taught by Hadi kacshmar)
- API in Flutter – Self-taught via YouTube & practice
- Responsive & Adaptive UI – Udemy (Taught by Tharwat Samy)
- Git & GitHub Basics – YouTube

## SKILLS

---

- Languages: Dart, C++ (basics)Public Relations
- Framework: Flutter
- State Management: BLoC, Provider& RiverPod
- Backend: Firebase (Firestore, Auth, Storage)
- Tools: Git, GitHub, Postman, Android Studio
- Other: Clean Architecture, REST APIs, Responsive Design

# PROJECTS

---

## Fruit Shop [GitHub Link](#)

- Developed a full-featured e-commerce application for browsing and purchasing fruits, implementing a complete user journey from login to checkout.
- Engineered a responsive UI for a seamless experience across different device sizes.
- **Technologies:** Flutter, Dart, Firebase (Auth, Firestore), BLoC (State Management), Clean Architecture.

## Movies App [GitHub Link](#)

- Built a dynamic movie browsing application that fetches and displays data from a live REST API.
- Implemented core features including movie listings, detailed views, and search functionality, focusing on efficient data handling and state management.
- **Technologies:** Flutter, Dart, REST API, Dio, Provider (State Management).

## Weather App [GitHub Link](#)

- Created a clean and intuitive weather forecasting app that provides real-time weather data based on user location.
- Successfully integrated a third-party weather API to fetch and display current conditions and forecasts.
- **Technologies:** Flutter, Dart, REST API, Location Services.

## News App [GitHub Link](#)

- Developed a news aggregator app that displays the latest articles from various sources, with functionality to categorize news by topic.
- Focused on creating an efficient and smooth user experience for browsing and reading articles.
- **Technologies:** Flutter, Dart, REST API, BLoC (State Management).
